FEB. 25	SUNDAY BRUNCH 11 - 1:30

### Pro's tip of the month:

To hit longer drives you need to Maximize carry and keep your ball from spinning too much. To help with this, make sure your alignment is good and double check your ball position so it's placed in the front of your stance, just inside your front foot. Then try and swing up on the ball to take the spin off and produce a high launching drive. I highly recommend visiting one of our demo days to get properly fitted for a driver that will help make it easier to produce those low spin and high launch drives. The reps at these demo days have launch monitors that are very valuable when fitting a driver. Grip it and rip it!!

Contact our PGA Professional Matt Ganshaw for individual or group lessons at 256-546-2011 or [matt@thegadsdencountryclub.com](mailto:matt@thegadsdencountryclub.com)

## From the Golf Course Superintendent

*It's hard to believe that the 2017 year has come and gone being one of our most productive years since the course was renovated in the late 90's. While maintaining our golf course at the highest possible level within our budget, we have planted over 130 new trees along with landscaped areas, replaced many broken sections of cart path, added many loads of rip rap around eroding ditch and lake banks and built 330 ft. of sea wall to reclaim land along number 16 fairway. We are currently building new teemarkers to go out on the golf course this spring and trimming the hedge row along the highway.*

*None of this would have happened without the support of our 2017 Golf Committee and for that, I would personally like to thank them. Bob Powers and David Forsythe and I talked more than they probably wanted and Bobby Hayes was most helpful during any construction project. Thanks to Jeff Martin's help with orchestrating our golf tournaments. These gentlemen have no idea what a pleasure it was for me to have worked so close with them this year!*

*In closing, I'd like to wish our membership a Safe and Happy New Year!*

Ronnie Turner, GCS
